

Online Graduation Audit: Help Guide

Note: This is an informational tool for students to track their progression towards graduation. It is NOT an official graduation audit. One year prior to graduation, you should complete the online Intent to Graduate form via My NDC to receive an official graduation audit from the Registrar's Office. TEEL students do not complete the Intent to Graduate form as it is not a degree seeking program. TEEL students should contact the Education Department when they are close to finishing their program.

Recalculate Student Progress

The main audit page shows a summary of your academic information including:

Contact and Classification Info: Your address, NDC email, and your class standing based on Cumulative Credits Earned

Credits Earned: Credits you have completed thus far, it does not include credits for current courses you are taking or “in progress” courses

Cumulative GPA, Major GPA: Must be above a 2.0 to graduate

Resident GPA or Credits: All grades earned and credits taken at NDC, must take a minimum of 30 or 32 credit hours at NDC for graduation (depending on your catalog)

Degree: BA or BS or BSN or MED or MA or MSN

Advisor: The faculty or department assigned to you as an academic advisor

Majors: The majors you have declared with the Registrar’s Office, if a major is not listed you need to declare it online via My NDC

Concentrations: If applicable to your major, the concentration you declared is listed, if a concentration is missing you need to declare it via My NDC

Catalog Year: Your audit is based on the year you enrolled at the college (i.e. you enrolled in FA14, SP15 or SU15 -your audit is based on the UG14 –15 catalog)

Expand All: Opens up all of your audits so you can scroll down in one view

Degree Audit PDF: This is a report of the same information listed on the online audit. We do not recommend using it as the format can be confusing

The overall statistics area shows your progress towards the overall credit requirement, the upper level credit requirement, the GPA requirement and the residential hours (# of courses taken at NDC) requirement for graduation. Your overall statistics information is listed in the dark blue line and it will show what is “needed” for each requirement and what you have earned. The earned numbers are what you have already earned, they do NOT include registered or “in progress” courses.

The upper level credit requirement is detailed below the overall information. The upper level credit amount earned DOES include any courses you are currently enrolled in and they are shown in yellow. If you fail an “in progress” upper level course, that credit amount will be deducted from your earned upper level credit amount.

Degree Audit PDF 

Recalculate Student Progress

Depending on when you started at NDC and the number of credits you transferred to the college (if applicable), you could be following the ARCH, CORE or General Education curriculum for your basic course requirements. Your online audit will show one of the three curriculums which is applicable to you as well as your major, and any minors you have declared. If you do not see any major or minor you are pursuing, then you need to declare it via My NDC under the Academics Tabs in the Registrar Forms area. (TEEL students—see last 2 pages for your information)

TEEL Students: Teacher Education Evening Licensure (TEEL) is a licensure only program and does not result in a degree, but rather the Ohio Department of Education (ODE) issues you a teaching license based on your completion of the program and any corresponding Pearson tests. When you are nearing the end of your program, you need to coordinate with the Department of Education so they can review your course work and test results and provide that documentation to ODE. The office of the Registrar does not audit TEEL students.

Depending on your licensure program, you will have courses in an education core to complete (see above) and a series of courses related to your content area (see next page for sample). The green checks are for completed courses, red X's are for courses you still need to complete, and yellow triangles are for courses you are currently enrolled in or ones you are registered for in the next term.
